# SOUTHEASTERN BRAIN TUMOR FOUNDATION

---

Dear Costco Charitable Contributions Organizer,

Our mission at the Southeastern Brain Tumor Foundation (SBTF) is to improve the quality of life for brain tumor patients and their loved ones. By working together with our supporters, we aim to continue to be a source of hope through counseling, education and support.

The SBTF has been a beacon of hope for nearly 30 years, providing vital resources and support for those impacted by brain cancer. With over a million Americans affected by brain tumors—ranging from adults to children—SBTF's work is indispensable in navigating the complexities of this challenging disease.

Brain tumors, which are the 10th leading cause of death in both men and women, also tragically hold the distinction of being the leading cause of cancer-related deaths among children ages 0 to 14. The SBTF's efforts are far-reaching, including offering educational scholarships, funding research grants, providing support through group meetings, and delivering acts of kindness to patients. Our signature events, the Race for Research and the Golf Invitational have brought together thousands in the fight against brain cancer. To date, SBTF has contributed millions in research funding, has welcomed hundreds of members to support groups and has provided countless acts of kindness.

Each year, brain cancer presents immense challenges for thousands of individuals and families, underscoring the need for organizations like SBTF to step in with crucial assistance. Collaboration with partners like Costco is vital, enabling SBTF to expand their support services, fund further research to improve treatment outcomes, and continue to raise awareness for this critical cause.

Sincerely,

The Southeastern Brain Tumor Foundation Board and Staff
